

INTRODUCTION

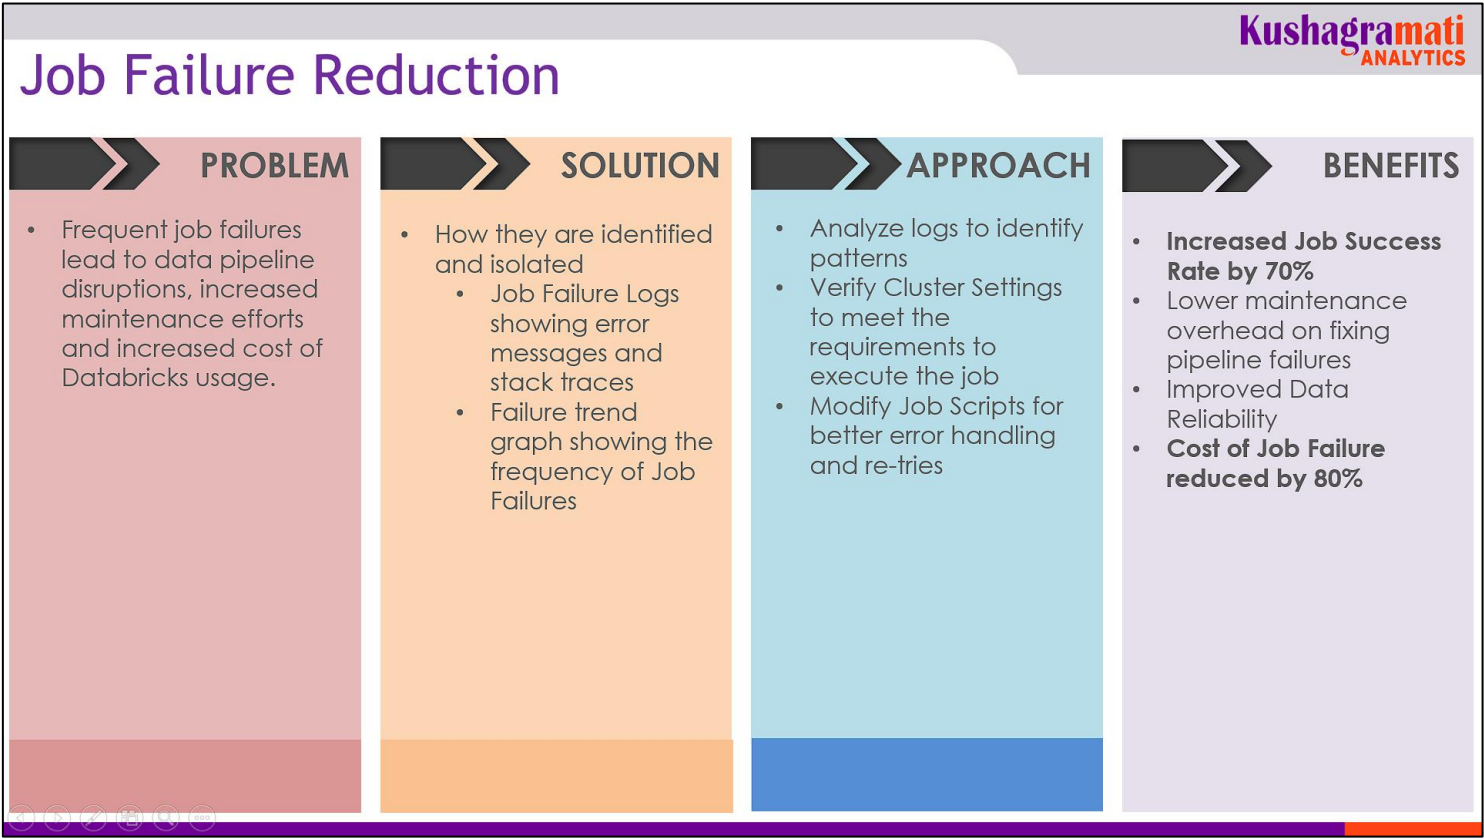

Kushagramati Analytics, a  databricks partner since 2021, specializes in transforming complex data into actionable insights through intelligent analytics. The company helps clients modernize applications and accelerate cloud transitions by combining industry expertise, technical proficiency and project management excellence with a differentiated methodology.

As a specialized service provider in Databricks Platform Tuning Services, **Kushagramati Analytics** provides tailored services in optimizing system tables and in-house developed customized governance tools, delivering advanced dashboards for comprehensive insights for organizations.

WHY TUNE YOUR DATABRICKS PLATFORM

- 1. **Cloud Platforms Require Maintenance:** Like machinery, cloud platforms benefit from regular tuning to maintain peak efficiency and performance.
- 2. **Manage Growth Challenges:** As your data size increases, both costs and performance can become challenging to manage without proactive measures.
- 3. **Ensure Cost-Efficiency and Performance:** Quarterly tuning helps organizations maintain consistent, high-performance operations while keeping costs under control. This regular optimization ensures your platform scales effectively with your needs.

CLIENT USE CASE
